LPR SYNCH
for Access Portal systems

Use License Plate Recognition cameras for access control at your vehicle access areas

- Integration of Impro Technologies Access Portal with select LPR cameras
- Simple capture of number plates into Access Portal
- Automatic or manual upload of plates to cameras
- Auto-synch interval from 1-60 min
- Upload of plate ID to camera for full integration via Wiegand
- Honour start/expiry dates, tag status, and person active status
- Change detection - upload only when plate data has changed
- Support for up to 100 cameras per system
